

**MINUTES
TIDE COMMITTEE
November 1, 2017**

Present: Archie Livingston, Mickey Van Metre, Charlie Boozer and Peter Beck
Absent: Janet Oakley, Marie Bost and Cameron Andrews

Also present: Councilman Jerome Kizer, Iris Hill, Natalie Kantz, Bob Doub and Patrick Brown

The beach access reviews done earlier by Janet Oakley, Cameron Andrews, Marie Bost and Councilman Jerome Kizer were discussed by the committee. Iris Hill recommended putting them on hold so the Town can get back to where we were before Matthew. Peter Beck stated that the committee is spinning its tires talking about stuff that it is not able to do at this time and needs to direct efforts towards other areas, such as maybe bike paths. Archie Livingston moved to table the recommendations until such time that the Town gets back to where it was before Matthew. Charlie Boozer seconded and the motion carried unanimously.

Natalie Kantz stated that she is pulling up posts and sand fencing that was destroyed during Irma and, also, she has someone looking at the Leyland cypress planted next to fence behind town hall facility that appear to be dying.

Archie Livingston recommended to the committee that they ride the bike path before the next meeting. Iris Hill stated that Wharton Smith is looking at putting transmission line under the bike path; if so, they will replace the bike path when completed.

Meeting adjourned at 10:25 am.
