

**TIDE COMMITTEE
MINUTES
3/2/2016**

Present: Peter Beck, Marie Bost, Cameron Andrews, Charlie Boozer, Archie Livingston, Mickey Van Metre, Iris Hill (Ex-Officio)

Minutes of the February 3, 2016, meeting were approved as read.

Chairman Boozer had the following to report:

- The causeway is looking good again.
- Charleston County will pay for Hwy 174 litter pick-up this year and potentially in the future.
- Yard Debris – lawn maintenance contractors received a letter from Police Chief George Brothers stating large piles have to be picked up by person receiving monetary gain. Normal and routine yard debris piles are continuing to be picked up by the Town.

Marie Bost is to pull deeds for marshside accesses to determine if the Town owns any of these accesses. Mrs. Bost also handed out pictures of the beach accesses and parks that are in disrepair. She pointed out the foliage needs to be cleaned up, cans are being left out of corrals because of disrepair, parking needs to be delineated better along with some just assigned for golf carts. It was noted that Bob Doub and Chief Brothers are planning to look at the beach accesses this week.

Archie Livingston suggested to ask the Lions Club for volunteers to take on some projects. Iris Hill suggested working on the bike racks (repair and move if needed). Archie will take this request to the next board meeting.

Marie Bost noted the drains need to be cleaned out and asked if guards could be put on some of them to make them more safe. Bob Doub stated his crew cleans them monthly. Iris stated we will send something to SCDOT to see if they can do something to make them more safe.

Mickey Van Metre commented how beautiful the causeway looks. It has opened up the view on both sides of Hwy 174.

Charlie Boozer asked the committee to think about setting aside a day in the future to work on Jungle Road Park.

Meeting adjourned at 10:50 am.
