RFP Number and Title: No. 2020-03 Professional Tank Maintenance Program for Water Storage Tanks

Reads:

Description: The Town of Edisto Beach is seeking to contract with a firm or firms to provide engineering services to

(will need to fill in)

Should Read:

Description: The Town of Edisto Beach is seeking to contract with a firm for Professional Tank Maintenance Services with experience in the administration, inspecting, renovating, and systematic maintenance of potable water storage facilities. It is the Town's intent to contract for a full-service maintenance program with a vendor that will include all inspection services, maintenance and repair services, and painting services for the Town's water tanks.

Receiving Period: March 24, 2020 at 2:00 p.m.

Question: I would like to get clarification in the RFP under section 5.0 Contractual Agreement. There is conflicting language between nine 1 year renewals, and renewed for an indefinite period of time. Please clarify if the contract can be extended beyond the initial 10 years or is it a one year contract that can be renewed annually up to 10 years.

Answer: The contract would be for one initial year and nine renewal one year extension for a term up to 10 years.
