

### **Addendum No. 1**

#### **RFQ 2019-10 Architectural/Engineering Edisto Beach New Town Hall Complex**

1. Is the similar project criteria a deal breaker for the selection? No, the committee will review all information. We have designed similar projects but they were not in the past two years. If you have experience we municipal building design, it should be listed, but only if the personnel who designed the project is still with the firm.
2. What is the scope of the project? Initially we are looking for direction and a design of a new Town Hall Complex and an estimated budget.
3. What is the construction budget? We plan to request the construction funds from the Colleton County Capital Project Sales Tax referendum in 2022.
